What was your favorite activity during Her Highness' Summer Extravaganza? What is something you learned that greatly stood out to you ?

Word Cloud

I really enjoyed the talks with the two ladies from Wilmington

The privilege walk. This activity gave the mentors and participants the opportunity to see how far we have come as individuals.

My favorite activity was the game " Around the town" The main thing that stood out to me was everyone learned something about them selves I know for me as a mentor I learned that some people have the same struggles that I have. No one is perfect but we all can strive for the best

The teambuilders and bonding with mentors!

My favorite activity during Her Highness' Summer Extravaganza was when we all went around the room and individually said why we were amazing. Something that greatly stood out to me is everyone's individuality. We had people from different ages, backgrounds, and even race attend the program.

I learned about college

College prep...

How well put together everything was!

I loved the posters that we did where the girls decided whether the beauty displayed was positive or negative. It allowed us to really see their view of beauty.

All of them

Relationship abuse

My daughter came home with the knowledge of std that I never thought she would learn about before she got to high school. She had more confidence in her natural hair then she did before she joined her highness! I appreciate everything her highness did for my 13 year old daughter!

The poster exercise on beauty. Many girls are going through things much sooner than we did.
